Table of Contents

TRACK A: TOTAL QUALITY MANAGEMENT (TQM)

It's Back to Basics with the Time-Based Continuous Improvement Process
Robert K. Hall 1

An Adult Approach to TQM Training
Cliff Schilling 4

Utilizing Performance Engineering and Design to Deploy TQM
Mark R. Trump 10

A Total Quality Approach to Technical Problem Solving
Daniel F. Lyons 19

Total Quality Management and the Safety Professional
James E. Roughton 26

Applying a Grand Strategy Approach to TQM Implementation
Garry D. Coleman and Kurt D. Black 36

Performance Improvement Engineers: Educating Leaders of Profound Knowledge
Cindy S. Johnston and Cheryl L. Simmers 46

What Do You Do When Your Organization is Not Ready for TQM?
Lincoln H. Forbes 52

An Approach to Quality and Cycle Time Improvement
F. E. Plonka, J. M. Utterback, and D. J. VandenBossche 62

Predictive Quality Profiling
Lissa Galbraith 70

TRACK B: PERFORMANCE MEASUREMENT

Integrating Performance Measures in Strategic Planning
Joy Teel, Cynthia Gillespie, Sheila Cuthbertson, Martha Perry, and Christopher Randall 78

Focused Performance: Managing What Matters
Brian Maguire 82

Sharpening the Saw: Individual Performance Measurement & Improvement
Cindy S. Johnston and L. Altyn Clark 92

Develop Supplier-Partners Using Performance Measurement Tools
Anand H. Joshi 100

Implementing TQM Using the Systems that Won the Deming Prize
R. Mauro Cevenini and Carol P. Cevenini 106

Managing Flexible Manufacturing
John E. Lenz 116

What is ISO 9000?
John Larry Baer 123

Dispelling the Myths - ISO 9000 and Quality System Certification
Roderick S. W. Goult 133

Bottom Line Results from ISO 9000
Michael V. Mathews 140

TRACK C: ORGANIZATIONAL ISSUES

Aligning Organizational Systems with Self-Managing Teams
Eileen Van Aken, Kimberly D. Beaumariage, and D. Scott Sink 142

Business Systems Planning for Strategic Alignment
Richard W. Goebel 152

Characteristics of Production Line Managers that Achieve Benchmark Results
Marla E. Hacker 162

Difficulties in Using Task Forces Effectively
Ian D. Hill 164

World Class Manufacturing the Human Side
Murat Z. Sehidoglu 172

Analysis of Low Versus High Impact JIT Implementation
Reza Pouraghabagher 175

Manufacturing Strategy and Organizational Changes: An International Study
Donald E. White and Vikram Raghupathy 182

TRACK D: ENGINEERING DESIGN

Islands of Design
Don Swann 192

Class A Product Development: The Path to Continuous Innovation
Tom Gillen and Dale Hiatt 211

Using Concurrent Engineering Techniques for Design for Manufacturability
Daniel T. Koenig 218

Enhanced Relational Database Design Using Icon Maps
Monty L. Carson and Rob Rucker 229

Plant Operations Control
F. Roy Piciacchia 236

Inventory Reduction & Manpower Scheduling in a Job Shop Using Discrete Event Simulation: A Case Study
Lynn Bivens and Dennis E. Kroll 246

Dynamic Graphics Simplify Decision Analysis
James A. Alloway, Jr. 254

Improved Designs Using Integrated Cost and Throughput Simulation
Roy A. Harrington and Robert P. Schlueter 264

A Generic IDEF Model of Fixture Planning & Design
S. Keith Hargrove 271

TRACK E: ERGONOMICS: NOW & THEN

Psychology Plus Physiology Plus Biomechanics Equal Ergonomics?
K. H. E. Kroemer 278

Software Development for High Exertion Manual Jobs
Don B. Chaffin 285

At Ohio State, the Customer Comes First
George L. Smith, Jr. 295

TRACK F: ENVIRONMENTAL MANAGEMENT & INDUSTRIAL COMPETITIVENESS

Energy, the Environment, and Economic Competitiveness
Peter Rojeski, Jr. and Patricia Rose 299

The Practical Application of Environmental Life Cycle Analysis
Duncan S. MacAlasdair. 307

Economic Considerations Concerning Environmental Systems
Arup K. Mallik and James E. Ross 314

Bottom-Line Benefits of Industrial Environmental Excellence
Jack Flynn 322

TRACK G: FACILITIES PLANNING & DESIGN

Increased Productivity with Breakthrough Systems
Bernard E. Wieland 325

TRACK H: LOGISTIC

No Papers Submitted

TRACK I: CAREER DEVELOPMENT

Lay-Off: Trauma or Opportunity for A New Career
Soter (Art) Liberty 335

Applying Concurrent Engineering to Your Career and Your Life
Lincoln H. Forbes 342

TRACK J: STUDENT ISSUES

The Industrial Engineer's Contribution to Product Development
Martin E. Muscatello and Gwendolyn C. Handy 352

Things Your Mother Never Told You
David C. Alexander and Sandra L. Smithson 356
